A. PRODUCT INFORMATION

EARLY LEARNING

The premier online resource for pre- and emergent readers in preschool, early childhood programs, kindergarten, and early elementary classrooms; the library children's section; and at home, designed to build a firm foundation for digital literacy

The *Early Learning* site is optimized for tablets, updated continuously, and offers rich resources designed for easy integration into the classroom curriculum. It is designed to help young learners build vocabulary, comprehension, phonics, and reading fluency. With human read-aloud and narration of classic stories, nursery rhymes, interactive games, and original videos, it is ideal for use with interactive whiteboards or small group instruction. “Treks Travels” offers narrated stories, interactive games, and original videos teaching critical early childhood themes—including numbers, shapes, colors, opposites, and more—in both English and Spanish. “Welcome to Reading,” a guided reading program, provides 48 stories spread across four progressive Lexile levels to aid in the development of phonics skills, vocabulary, phonemic awareness, comprehension, and social-emotional skills. The Lexile Framework® for Reading ensures that early readers are using textual materials at an appropriate level. “Know It” includes rich, visual, nonfiction topics of interest and importance to early learners, and the “Print & Do” and “Play” activities reinforce developmental themes within the site.

KIDS – CATEGORY 95600

Designed for elementary-aged learners with easy-to-read content and rich multimedia in an intuitive user interface to support young digital natives

Users will find a wealth of facts and figures as well as photos, illustrations, animations, and maps to enhance their understanding of a subject. A predictive search engine aids in spelling, vocabulary-building and discoverability. Hundreds of fun activities, hands-on science projects and experiments, lesson plans, and resources for educators are included in *World Book Kids*. The “World of Animals” and “Compare Places” features provide quantitative, well-organized information within a fun and useful tool to help users compare different animals or places. *World Book Kids* includes translation functionality that allows article content to be translated from English into one of more than 100 languages, along with a double-click dictionary function and a read-aloud feature to help with comprehension. “Activities” and “Science Projects” are great for low-cost makerspace projects and for student use at home to support curriculum. Visually engaging and designed to captivate even the most reluctant learner, *World Book Kids* is optimized for tablet access and provides a firm foundation for 21st century learning and digital citizenship. *World Book Kids* is updated multiple times daily.

STUDENT – CATEGORY 95600

Tailored for elementary- and middle-school students with research tools, learning resources, and content written at an appropriate level to engage students and provide a personal learning environment

World Book Student content, updated multiple times daily, integrates easily into the curriculum, and all users will have access to tens of thousands of encyclopedia articles, thousands of images, featured videos, and research tools, such as a “Citation Builder” to cite 16 different types of sources such as blogs and podcasts and a “How to Do Research” feature to teach, reinforce, and streamline the research process. Content can be saved to a personalized “My Research” account or to a student’s personal Google Drive or Microsoft OneDrive account. A Biography Center, “Compare Places” and “Behind the Headlines” features, and trivia are also included for this tablet-optimized site for the ultimate mobile research experience. Educator Tools include lesson plans, curriculum correlations, graphic organizer templates, WebQuests, integration with Google Classroom, and STEM activities to extend learning. *World Book Student* supports college and career readiness and provides a blueprint for advanced digital learning.

ADVANCED – CATEGORY 95600

Designed to meet the needs and skills of students in high school as well as adult learners and reinforce responsible digital citizenship

In addition to a wealth of vetted articles, links to thousands of original, eyewitness, and historic source documents are included, some of which are a part of the “Teaching with Primary Source Documents” feature that includes advanced lesson plans. World Book-created “Pathfinders,” or pre-generated content sets, to aid in research and subject matter understanding, are introduced in *World Book Advanced* along with “Shared Pathfinders” of World Book content and other resources that are created and shared by World Book users. “In the Headlines” provides customizable RSS news feeds from several sources, including *The Washington Post* and *Reuters*. *World Book Advanced* includes tens of thousands of images, links to Research Tools, as well as interactive maps. The “World Newspapers” feature gives users access to more than 400 international newspapers from countries around the globe, providing news in the language in which it was originally published, to enhance international current events coverage and provide a global perspective on important topics. This feature will support the needs of your ESL students, enabling them to stay informed with news in their first language. Users will also benefit from the links to thousands of government websites from all over the world. *World Book Advanced*, updated multiple times a day, is ideal for collaboration in any academic setting.
