A. PRODUCT INFORMATION

EARLY LEARNING

The premier online resource for pre- and emergent readers in preschool, early childhood programs, kindergarten, and early elementary classrooms; the library children's section; and at home, designed to build a firm foundation for digital literacy

The *Early Learning* site is optimized for tablets, updated continuously, and offers rich resources designed for easy integration into the classroom curriculum. It is designed to help young learners build vocabulary, comprehension, phonics, and reading fluency. With human read-aloud and narration of classic stories, nursery rhymes, interactive games, and original videos, it is ideal for use with interactive whiteboards or small group instruction. “Treks Travels” offers narrated stories, interactive games, and original videos teaching critical early childhood themes—including numbers, shapes, colors, opposites, and more—in both English and Spanish. “Welcome to Reading,” a guided reading program, provides 48 stories spread across four progressive Lexile levels to aid in the development of phonics skills, vocabulary, phonemic awareness, comprehension, and social-emotional skills. The Lexile Framework® for Reading ensures that early readers are using textual materials at an appropriate level. “Know It” includes rich, visual, nonfiction topics of interest and importance to early learners, and the “Print & Do” and “Play” activities reinforce developmental themes within the site.

KIDS

Designed for elementary-aged learners with easy-to-read content and rich multimedia in an intuitive user interface to support young digital natives

Users will find a wealth of facts and figures as well as photos, illustrations, animations, and maps to enhance their understanding of a subject. A predictive search engine aids in spelling, vocabulary-building and discoverability. Hundreds of fun activities, hands-on science projects and experiments, lesson plans, and resources for educators are included in *World Book Kids*. The “World of Animals” and “Compare Places” features provide quantitative, well-organized information within a fun and useful tool to help users compare different animals or places. *World Book Kids* includes translation functionality that allows article content to be translated from English into one of more than 100 languages, along with a double-click dictionary function and a read-aloud feature to help with comprehension. “Activities” and “Science Projects” are great for low-cost makerspace projects and for student use at home to support curriculum. Visually engaging and designed to captivate even the most reluctant learner, *World Book Kids* is optimized for tablet access and provides a firm foundation for 21st century learning and digital citizenship. *World Book Kids* is updated multiple times daily.

<https://www.worldbookonline.com/training/products/kids/kids-index.htm>

STUDENT

Tailored for elementary- and middle-school students with research tools, learning resources, and content written at an appropriate level to engage students and provide a personal learning environment

World Book Student content, updated multiple times daily, integrates easily into the curriculum, and all users will have access to tens of thousands of encyclopedia articles, thousands of images, featured videos, and research tools, such as a “Citation Builder” to cite 16 different types of sources such as blogs and podcasts and a “How to Do Research” feature to teach, reinforce, and streamline the research process. Content can be saved to a personalized “My Research” account or to a student’s personal Google Drive or Microsoft OneDrive account. A Biography Center, “Compare Places” and “Behind the Headlines” features, and trivia are also included for this tablet-optimized site for the ultimate mobile research experience. Educator Tools include lesson plans, curriculum correlations, graphic organizer templates, WebQuests, integration with Google Classroom, and STEM activities to extend learning. *World Book Student* supports college and career readiness and provides a blueprint for advanced digital learning.

<https://www.worldbookonline.com/training/products/student/student-index.htm>

ADVANCED

Designed to meet the needs and skills of students in high school as well as adult learners and reinforce responsible digital citizenship

In addition to a wealth of vetted articles, links to thousands of original, eyewitness, and historic source documents are included, some of which are a part of the “Teaching with Primary Source Documents” feature that includes advanced lesson plans. World Book-created “Pathfinders,” or pre-generated content sets, to aid in research and subject matter understanding, are introduced in *World Book Advanced* along with “Shared Pathfinders” of World Book content and other resources that are created and shared by World Book users. “In the Headlines” provides customizable RSS news feeds from several sources, including *The Washington Post* and *Reuters*. *World Book Advanced* includes tens of thousands of images, links to Research Tools, as well as interactive maps. The “World Newspapers” feature gives users access to more than 400 international newspapers from countries around the globe, providing news in the language in which it was originally published, to enhance international current events coverage and provide a global perspective on important topics. This feature will support the needs of your ESL students, enabling them to stay informed with news in their first language. Users will also benefit from the links to thousands of government websites from all over the world. *World Book Advanced*, updated multiple times a day, is ideal for collaboration in any academic setting.

DISCOVER

Ideal for reluctant readers, ELL, ESL, and adult literacy students with content tailored for ease of comprehension and vocabulary building.

Discover offers foundational content on a variety of topics in a format that is perfect for differentiation. Our engaging reference resources are ideal for students reading below grade level because of language or learning difficulties, with content and tools specifically developed for these students.

Discover
Grades 5+

Discover features two reading levels for each article: a simplified article (from our World Book Discover encyclopedia) and a detailed article. Users can easily toggle between the two reading levels with the click of a button! Built-in tools for accommodation make content accessible to a variety of learning styles. In addition, Discover helps these learners navigate the research process by providing tutorials for how to find, evaluate, and organize information as well as cite sources.

AULA PLANETA

The screenshot shows the 'Mundo Saber' website, which is a resource for students. The top navigation bar includes a menu, topics, areas, subjects, experiments, concepts, third languages, and school areas. The main content area is organized into several sections: 'temas de hoy' (Today's Topics) featuring links to secondary, primary, education, and higher education; 'ayuda escolar' (School Help) providing resources for different age groups (8-12, 12-14, and 14-18 years); and an 'enciclopedia' (Encyclopedia) section with links to atlas, mathematics, astronomy, and geology. A 'Navegador Visual' (Visual Navigator) is also present, allowing users to explore different levels of education.

- Country population statistics updated
- Scientific classification of fishes revised

About the Spinescape

The 2026 edition of *The World Book Encyclopedia* marks the 250th anniversary of the United States with a bold tribute to the enduring symbolism of the American flag. Striking in its simplicity, the Spinescape design reflects the nation's ideals of freedom, unity, and resilience. A special celebration of America's rich history and diverse heritage, this commemorative edition makes a powerful and timeless statement on any shelf.

2025 Fall Releases

Aha! Academy: Chemistry

10 Titles • 48 pages each • SKU 20488 • ©2026
Regular Price: USD \$299, CAD \$419

- Packed with special features highlighting careers, new technology, and cross-curricular connections
- Full spreads spotlight elements and how they're used
- An activity in each book and online resources extend the learning

Aha! Academy: Math

10 Titles • 48 pages each • SKU 20489 • ©2026
Regular Price: USD \$299, CAD \$419

- Introduces students to famous and historical mathematicians
- Demonstrates math's use in the world through career and technology pop-ups
- Each book includes a bespoke activity and online comprehension questions

Building Blocks of Biology

10 Titles • 40 pages each • SKU 20485 • ©2026
Regular Price: USD \$299, CAD \$419

- Includes fun experiments and activities
- "Life on the Edge" feature showcases the latest frontiers in biology
- Comprehension questions throughout, and a "Show What You Know" review ends each book

Building Blocks of Computer Science

10 Titles • 40 pages each • SKU 20484 • ©2026
Regular Price: USD \$299, CAD \$419

- Highlights the latest technologies and approaches to computer science
- Timely titles include Artificial Intelligence, Cybersecurity, and Semiconductors
- Includes fun facts, timelines, biographies, and activities

Robots

10 Titles • 48 pages each • SKU 20483 • ©2026
Regular Price: USD \$299, CAD \$419

- Engaging STEM series that details human-robot interaction
- Features the latest technologies and includes robot "biographies"
- "Hands-On Robotics" spread encourages readers to participate
