ANNUAL BREAKFAST

HIDDEN LEARNING DISABILITIES: SUPPORTING ADULT PATRONS IN YOUR LIBRARY

We can't always see patrons' disabilities. This is especially true with Adult Learning Disabilities (LD). This year's MOSIAC Breakfast speakers will tell us more about LDs, how we can recognize them, and suggest some supportive strategies we can implement in our libraries for this demographic. This program is perfect for any librarian who wants to create a welcoming environment for everyone in their community. Attendees will leave with best practices for programming, collection development, and accommodations.
