

# TECHNOLOGY INFORMATION FORUM

## Curious about tech in libraries? So are we!

The Technology Information Forum (TIF) is a welcoming community of library staff who like to talk shop about computers, emerging tech, and all the digital questions that come up in library life. We meet monthly—mostly on Zoom, with occasional in-person meetups—to share ideas, swap experiences, and learn from one another. Meeting dates are announced on the SCLA listserv. All tech curiosity levels welcome!
